What is this product?

Type

This product is a QIAIF Investment Fund.

Term

This product has no fixed end date. However the Sub-Fund, at its absolute discretion, can redeem all the shares of the Sub-Fund under the circumstances set out in the prospectus.

Objectives

To seek income and long term growth of capital.

Investment Policy

Strategy The Sub-Fund pursues an actively managed multi-asset cautious growth strategy. This is reflected in the Sub-Fund's strategic asset allocation whereby the Investment Manager sets target allocations to various asset classes that support the Sub-Fund in achieving its investment objective. The Investment Manager uses macroeconomic research to identify global investment themes and opportunities when determining the Sub-Fund's asset allocation.

The Sub-Fund constitutes a fund of funds, as the asset allocation is primarily implemented through investment in other collective investment schemes (the "Underlying Funds"). These Underlying Funds can be actively or passively managed.

Sustainability approach The Sub-Fund promotes environmental characteristics through progressive decarbonisation of its portfolio with a view to achieving net zero carbon emissions by 2050. Additionally, the Sub-Fund targets an annualised reduction of 6% with a view to achieving at least a 45% reduction from 2019 levels by 2030. Percentages are calculated relative to the size of the Sub-Fund. The Sub-Fund commits to having a minimum proportion of 10% in sustainable investments, based on the Investment Manager's framework.

Benchmark(s) FTSE USD 1 Month Euro Deposit benchmark rate or an appropriate, equivalent rate for each relevant Share Class currency (the "Benchmark"). The Benchmark is used as an outperformance target. There are no constraints relative to the Benchmark.

The Sub-Fund seeks to outperform the Benchmark by 2% to 3% on average per annum over the medium to long term. The outperformance range indicates the level of outperformance sought after the Sub-Investment Manager(s) fee and other Sub-Fund fees and expenses have been paid but before the Management Fee is deducted.

Investments The Sub-Fund may have exposure to a range of asset classes, such as: equities, corporate and government debt securities (of any credit quality including below investment grade), commodities (including precious metals), liquid alternatives (such as absolute return strategies) and cash and cash equivalents. The Sub-

Fund primarily achieves exposure indirectly to these asset classes through investments in Underlying Funds which may have exposure to issuers located anywhere in the world, including Emerging Markets.

The Sub-Fund may invest in assets denominated in any currency and currency exposure is flexibly managed.

Derivatives The Sub-Fund may use Derivatives for efficient portfolio management to reduce risks (hedging), to reduce costs or to seek additional capital or income in line with its risk profile. Derivatives may also be used for investment purposes. To the extent that the Sub-Fund uses Derivatives for investment purposes, there may be a risk that the volatility of the Sub-Fund's NAV may increase.

Base currency USD.

Dealing information Every day that is a bank business day in Ireland or the UK ("Business Day") will be a Dealing Day for the Sub-Fund. Requests to subscribe or redeem Shares of the Sub-Fund that are received and accepted by the Administrator on behalf of the Sub-Fund before 11:30 am Irish time on any Dealing Day are processed that day.

Distribution policy The Share Class will not distribute dividends. Income and capital gains from the Sub-Fund are reinvested.

Intended retail investor

The Sub-Fund is suitable for investors with at least basic knowledge of, and experience with, financial products, who understand the risks of the Sub-Fund including potential capital loss and who:

- seek to achieve investment objectives aligned with that of the Sub-Fund
- have a long-term investment horizon
- seek a product that promotes environmental characteristics

Practical information

Depository The Sub-Fund's assets are held through its depository, State Street Custodial Services (Ireland) Limited.

Further information The Umbrella is constituted as an investment company with variable capital with segregated liability between sub-funds under Irish law. This means that the Sub-Fund's assets are maintained separately from the assets of other sub-funds and your investment in the Sub-Fund will not be affected by claims against any other sub-fund of the Umbrella. You may request the exchange of shares in this Sub-Fund for shares available in other Sub-Funds of Mercer QIF Fund plc on each Dealing Day. Additional information on exchanges is available in the prospectus. The prospectus, latest annual and semi-annual reports, which are prepared for the entire Umbrella, and information on other shares classes are available free of charge in English on <https://investment-solutions.mercer.com>.

The net asset value per share is published on www.bloomberg.com.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may

depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. Beside the risks included in the risk indicator other risks may affect the Sub-Fund's performance. Please refer to the supplement available free of charge at <https://investment-solutions.mercer.com>

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between September 2024 and November 2025.

Moderate: this type of scenario occurred for an investment between March 2020 and March 2025.

Favourable: this type of scenario occurred for an investment between January 2016 and January 2021.

What happens if Mercer Global Investments Management Limited is unable to pay out?

The Sub-Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Sub-Fund to investors from its own assets. The Sub-Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Sub-Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate). Investors in QIAIFs such as the Sub-Fund, are not covered under the terms of the Irish statutory investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	146 USD	732 USD
Annual cost impact*	1.5%	1.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.5% before costs and 4.9% after costs.
