What is this product?

Type

This product is a UCITS Investment Fund.

Term

This product has no fixed end date. However the Sub-Fund, at its absolute discretion, can redeem all the shares of the Sub-Fund under the circumstances set out in the prospectus.

Objectives

To achieve attractive risk adjusted returns.

Investment Policy

Strategy The Sub-Fund is actively managed and seeks to provide exposure primarily to short duration, investment grade debt securities globally. The Sub-Fund uses a 'manager of managers' style investment approach, where the Investment Manager selects and combines complementary investment strategies by dynamically allocating to Sub-Investment Manager(s). These Sub-Investment Manager(s) are monitored and assessed by the Investment Manager. This approach aims to construct an overall portfolio that aims to maintain a short average duration and seeks to generate returns through a combination of income and capital growth while also managing risks through diversification.

Sustainability approach The Sub-Fund promotes environmental characteristics, namely, to seek to mitigate the impact of climate change by reducing the potential carbon footprint of the Sub-Fund. The Sub-Fund avoids exposure to, in the opinion of the Investment Manager (or its delegate), the worst carbon emitters with the lowest carbon transition potential being those companies:

- whose carbon emissions intensity exceed 3,000 tonnes/ m\$USD revenue, unless the Investment Manager's (or its delegates'), proprietary analysis of such companies indicates strong carbon transition potential, or
- that generate more than 1% of their revenue from thermal coal extraction, arctic drilling or oil tar sand mining.

The Sub-Fund promotes social characteristics by avoiding investment in companies that:

- are involved in the manufacture, distribution or sales of controversial weapons, or
- manufacture tobacco products or generate more than 50% of their revenue from tobacco distribution or sales.

In addition, the Sub-Fund excludes companies that:

- have material exposure to production of:
 - recreational cannabis
 - coal or coal-related products
- are considered to contribute to or are responsible for:
 - gross corruption and other serious economic crime
 - severe environmental damage
 - serious violations of international law/human rights.

These exclusions are implemented and monitored in accordance with the "Sustainability Policies" section of the Prospectus.

The Sub-Fund commits to having a minimum proportion of 25% in sustainable investments, based on the Investment Manager's framework.

Benchmark(s) JP Morgan GBI Global 1-3 Year Total Return Index (USD), hedged (the "Benchmark"). The Benchmark is used as an outperformance target. The Benchmark represents the performance of fixed-rate, local currency treasury bonds issued in developed

markets, with minimum term to maturity greater than or equal to one year and less than three years.

The Sub-Fund seeks to outperform the Benchmark by 0.5% to 1% on average per annum over the medium to long term. The outperformance range indicates the level of outperformance sought after the Sub-Investment Manager(s) fee and other Sub-Fund fees and expenses have been paid but before the Management Fee is deducted.

The Sub-Fund does not intend to track the Benchmark and can invest in securities that are not included in the Benchmark. Under normal market conditions, the ex-post tracking error is expected to range between 1% and 3% over the medium to long term (indicative only). *Additional benchmark* Bloomberg Global Aggregate Corporate Total Return Index (USD), hedged (the "Additional Benchmark"). The Additional Benchmark is used for risk management purposes as the basis for relative VaR calculations. The Additional Benchmark broadly represents the intended characteristics of the Sub-Fund with regards to interest rates, currency, maturity, country and credit ratings.

Investments The Sub-Fund invests primarily in short duration, investment grade debt securities, denominated in major world currencies such as USD, CAD, GBP and EUR. These debt securities are issued by companies or government and government-related issuers globally. The Sub-Fund may invest in securitised debt. To a lesser extent the Sub-Fund may invest in Emerging Markets and in debt securities which are rated below investment grade but with a minimum rating of speculative grade at the time of purchase.

The Sub-Fund may invest in assets denominated in major world currencies and currency exposure is typically hedged to the Base Currency.

Derivatives and techniques The Sub-Fund may use Derivatives and technique(s) for efficient portfolio management to reduce risks (hedging), to reduce costs or to seek additional capital or income in line with its risk profile. Derivatives may also be used for investment purposes. To the extent that the Sub-Fund uses Derivatives for investment purposes, there may be a risk that the volatility of the Sub-Fund's NAV may increase.

Base currency USD.

Dealing information Every day that is a bank business day in Ireland or the UK ("Business Day") will be a Dealing Day for the Sub-Fund. Requests to subscribe or redeem Shares of the Sub-Fund that are received and accepted by the Administrator on behalf of the Sub-Fund before 1:00 pm Irish time on any Dealing Day are processed that day.

Distribution policy The Share Class will not distribute dividends. Income and capital gains from the Sub-Fund are reinvested.

Intended retail investor

The Sub-Fund is suitable for investors with at least basic knowledge of, and experience with, financial products, who understand the risks of the Sub-Fund including potential capital loss and who:

- seek to achieve investment objectives aligned with that of the Sub-Fund
- have a long-term investment horizon
- seek a product that promotes environmental and/or social characteristics

Practical information

Depository The Sub-Fund's assets are held through its depository, State Street Custodial Services (Ireland) Limited.

Further information The Umbrella is constituted as an investment company with variable capital with segregated liability between sub-funds under Irish law. This means that the Sub-Fund's assets are maintained separately from the assets of other sub-funds and your investment in the Sub-Fund will not be affected by claims against any

other sub-fund of the Umbrella. You may request the exchange of shares in this Sub-Fund for shares available in other Sub-Funds of MGI Funds plc on each Dealing Day. Additional information on exchanges is available in the prospectus. The prospectus, latest annual and semi-annual reports, which are prepared for the entire Umbrella, and information on other share classes are available free of charge in English on <https://investment-solutions.mercer.com>. The net asset value per share is published on www.bloomberg.com.

What happens if Mercer Global Investments Management Limited is unable to pay out?

The Sub-Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Sub-Fund to investors from its own assets. The Sub-Fund's assets are safeguarded by the Depository in accordance with applicable law. If the Sub-Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depository's insolvency or default (or that of any custody delegate). Investors in UCITS, such as the Sub-Fund, are not covered under the terms of the Irish statutory investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	135 USD	673 USD
Annual cost impact*	1.4%	1.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.7% before costs and 2.3% after costs.
