

**Mercer Private Investment Partners IX Feeder FCP-RAIF- Sub-Fund Credit Opportunities (the “Feeder Sub-Fund”)**

Sustainability-related disclosures required for Article 8 financial products under Regulation (EU) 2019/2088. The Feeder Sub-Fund invests all its assets in Mercer Private Investment Partners IX SCSp SICAV-RAIF - Sub-Fund Credit Opportunities (the “**Master Sub-Fund**”). For the purposes of this disclosure document, and as the context requires, the Feeder Sub-Fund and the Master Sub-Fund are together referred to as the “**Sub-Fund**”.

<p><b>I. No sustainable investment objective</b></p>
<p>This financial product promotes environmental or social characteristics but does not have as its objective sustainable investment.</p>
<p><b>II. Environmental or social characteristics of the financial product</b></p>
<p>The Sub-Fund promotes social and/or environmental characteristics by predominantly investing in Primary Investments, Secondary Investments and Co-Investments with a view to mitigating environmental, social and governance risks that can result in credit deterioration.</p> <p>The Sub-Fund intends to contribute to the limitation of adverse impacts on the climate and associated environmental challenges and/or to a more inclusive and more equitable society and/or to improved living standards by focusing on Primary Investments, Secondary Investments and Co-Investments that are ESG risk aware and selected based on a rigorous investment due diligence process that is based on a dedicated exclusion screening for harmful activities and behaviours and complemented by a proprietary ESG analysis.</p>
<p><b>III. Investment Strategy</b></p>
<p>The Sub-Fund’s objective is to provide attractive risk-adjusted returns from capital invested directly or indirectly in credit opportunities and related strategies by making investments in, mainly, the following types of investments:</p> <ul style="list-style-type: none"> <li>(i) credit dislocation, special situations, capital solutions and distressed debt; and</li> <li>(ii) Other opportunistic strategies (including corporate debt, structured credit, specialty/asset based finance) that are tied to the market dislocation caused by inflation, rising interest rates and overall market volatility,</li> </ul> <p>while reducing the risks through diversification.</p> <p>The ESG investment strategy of the Sub-Fund is based on the following elements:</p> <ul style="list-style-type: none"> <li>(i) exclusion screening;</li> <li>(ii) dedicated due diligence of the Underlying GP with respect to their ESG policies and capabilities; and</li> <li>(iii) ESG assessment at Primary Investment, Secondary Investment and Co-Investment level.</li> </ul>
<p><b>IV. Proportion of Investments</b></p>
<p>The Sub-Fund aims to primarily create an opportunistic and/or special situations focused portfolio, consisting of Portfolio Investments such that the portfolio is well diversified across different sectors and sub-sectors. At least 51% of the Sub-Fund’s commitments will be aligned with E/S characteristics (#1) (based on commitments made at the end of the Sub-Fund’s investment period). Investments that fall into the category #2 (“Other”) refer to Primary Investments, Secondary Investment and Co-Investments that are not expected to promote environmental and/or social characteristics as well as Ancillary Investments such as cash and other balance sheet items. The planned asset allocation with respect to the split between #1 Aligned with E/S characteristics and #2 Other (see below) may not be complied with during a Transitional Period. The planned asset allocation remains applicable until the Sub-Fund begins realising its assets.</p> <div data-bbox="443 1473 1139 1736" data-label="Diagram"> </div>
<p><b>V. Monitoring of environmental or social characteristics</b></p>
<p>Investments that contribute to the achievement of the promoted environmental and social characteristics are periodically reviewed for alignment with the binding elements detailed in section “Investment Strategy”. The review is based on information directly requested from the Underlying GP based on a dedicated reporting questionnaire that is reflecting the ESG investment profile and binding elements of the Sub-Fund. With regard to external controls, the Sub-Fund will monitor evolving best practices periodically and realign its positioning regarding external controls accordingly.</p>
<p><b>VI. Methodologies for environmental or social characteristics</b></p>
<p>The Sub-Fund is focused on the following sustainability indicators to measure the promotion of environmental or social characteristics:</p> <ul style="list-style-type: none"> <li>• Alignment with the exclusion screening;</li> </ul>

Original Publication: January 2026

- Underlying GP ESG due diligence assessment results; and
- ESG assessment results at Primary Investment , Secondary Investment or Co-Investment level.

The environmental and /or social characteristics focus with respect to the sustainability indicators underlying the Underlying GP due diligence may differ within the limits of the investment objective from investment to investment. The measurement of these indicators is performed at the asset level and provided upstream from the target Underlying GP within the investment chain to the level of the Sub-Fund, where the provided data is assessed, processed, aggregated, and disclosed. Further the Sub-Fund is deriving a dedicated Mercer ESG due diligence score based on the assessment of the target Underlying GP as well as the disclosure of the underlying investment which is used as a binding element for the selection of investments as well as reporting purposes.

**VII. Data sources and processing**

The Sub-Fund qualifies as a fund of fund structure that invests in unlisted investments (Primary Investments, Secondary Investments and Co-Investments) where no, or respectively very limited, information about the underlying investments is publicly available. The data sources used by the Sub-Fund to achieve the environmental and social characteristics promoted are based on information and documentation provided by the respective GP as part of the due diligence and ongoing monitoring. The data collection for the investments is initiated on a periodic basis. The required data is based on the Sub-Fund’s regulatory commitments and communicated to the GP’s during the initial due diligence as well as in case of any material changes. The Sub-Fund will reassess periodically the proportion of data that is estimated, usually in line with the annual reporting process of the Sub-Fund.

**VIII. Limitations to methodologies and data**

The data sources are in principle limited regarding Primary Investments during the initial due diligence as the assessment cannot be made with respect to existing investments but is focused on the processes of the Underlying GP, and the disclosure of the target fund in addition to side letter representations. Further, the data received by the Sub-Fund is in principle provided by the Underlying GP based on information obtained directly from the underlying investments. The completeness, accuracy and consistency of the obtained data may face certain limitations which is addressed in the periodic data management process assessment of the Underlying GP. Methodologically, no material limitations are expected. The Sub-Fund does not expect these limitations to materially affect the attainment of the ESG investment allocation or the promoted environmental and social characteristics and will periodically reassess relevant limitations and their impact on the attainment of the environmental and social characteristics promoted.

**IX. Due Diligence**

The Sub-Fund has, besides the usual business and legal due diligence process, established a dedicated ESG due diligence process per investment. The investment is subject to a dedicated ESG Due Diligence at the level of the Underlying GP as well as the level of the investment (Primary Investment, Secondary Investment, Co-Investment). The Sub-Fund is considering within the due diligence inter alia the following topics (non-exhaustive):

GPESG considerations	Fund/Co-investment ESG considerations
Overall ESG Governance, Track Record and Capabilities	Exclusion strategy and positive screening
ESG standards, industry associations, reporting framework	Investment process alignment – consideration of sustainability risks and climate risks
Firmwide ESG Report	ESG engagement and monitoring

Further, the GP/Lead-investor due diligence is complemented by an ESG assessment at the Primary Investment, Secondary or Co-Investment level, which focuses on the degree of ESG integration within the investment strategy under consideration. To be eligible for consideration in the Sub-Fund, the following minimum score for the promotion of environmental and/or social characteristics is required as either:

- a minimum of two (out of four) on both the Underlying GP assessment and the Primary Investment, Secondary Investment or Co-Investments level assessment; or
- at least a three (out of four) in one of either the Underlying GP assessment or the Primary Investment, Secondary Investment or Co-investments level assessment.

**X. Engagement policies**

The Portfolio Manager engages in a constructive dialogue with the Underlying GP to ensure that they have clear processes and policies in place to mitigate potential externalities. With this engagement the Investment Manager supports the improvement of the Underlying GP’s ESG Score and their ESG process.

**XI. Designated reference benchmark**

No index has been designated as a reference benchmark.
